Full Professional Proficiency

## SUMMARY

Motivated and detail-oriented Front-End Developer with strong experience in React, Next.js, and WordPress. Passionate about building responsive, user-friendly websites and continuously expanding my knowledge of the latest web technologies to deliver exceptional digital experiences

## WORK EXPERIENCE

**Freelance projects**

**Pro Keramik — ERP Management System**
Developed a custom ERP management system for managing ceramics and materials, users, products, orders, payments, and core business operations. Built responsive interfaces and reusable components to support efficient day-to-day workflows.
**Technologies:** React.js, Shadcn, REST APIS, Tailwind CSS, Zustand, React Query

**Motivate PT — Fitness & Personal Training Platform**
Developed new pages and features for a fitness and personal training platform while resolving UI and functional issues. Improved responsive layouts, SEO, Core Web Vitals, and overall website performance.
**Technologies:** WordPress, Elementor

**Supara — Arabic Reading Learning Mobile App** Developed an offline mobile learning app that helps Albanian- and German-speaking users learn Arabic reading for Quranic study. Built interactive letter and number lessons, audio pronunciation, self-recording, tracing exercises, quizzes, multilingual support, and locally saved learning progress. **Technologies:** React Native, Expo, TypeScript, Expo Router, Expo SQLite, Expo Audio, React Native SVG

**Luigi Building — Construction Company Website**
Designed and developed a responsive landing page for a construction company using WordPress and Elementor. Integrated contact forms and implemented SEO and performance optimizations to improve website speed and visibility.
**Technologies:** WordPress, Elementor

**Little Muslim — Islamic Learning Mobile App**
Developed a mobile app that helps children learn Islamic values through interactive stories, duas, quizzes, and daily good deeds. Built a gamified garden reward system, parent dashboard, multilingual support, cloud progress sync, and premium subscriptions. **Technologies:** React Native, Expo, TypeScript, Expo Router, Supabase, AsyncStorage, RevenueCat, Expo Audio, Expo Notifications.

**Front End Developer — Freelance Contractor | Remote,** *THREECOLTS* 07/2025 – 07/2026
Develop and maintain the Threecolts blog using WordPress, including custom theme features, content improvements, SEO, and regular maintenance. Redesigned and expanded the company website using SvelteKit and Tailwind CSS, developing new pages and reusable UI components while improving responsive design and overall UI/UX consistency.
**Technologies:** SvelteKit, Tailwind CSS, WordPress, SCSS, ACF

**Front End Developer - Full Time | Hybrid,** *Innovative Solution* 01/2023 – 08/2025 | Prishtine, Kosovo
Developed e-commerce and ERP platforms for Pygmalion Be and Morel Opticien, implementing authentication, user management, product catalogs, blogs, Stripe payments, and business management functionality.
**Technologies:** React.js, Next.js, REST APIs, Tailwind CSS, Material UI, Shadcn, Zustand, React Query

**Front End Developer - Freelance | Remote,** *CNW GMBH (COLNETWORKS)* 07/2021 – 12/2022
Designed and developed a modern, responsive company website for an IT services provider using WordPress and Elementor. Created flexible page layouts and implemented responsive, cross-browser interfaces while applying UI/UX and accessibility principles to deliver a professional web presence.
**Technologies:** WordPress, Elementor, ACF, HTML, CSS, PHP

**Front End Developer - Full time | On-site,** *Blackstone Eit* 02/2019 – 05/2021 | Prishtine,Kosovo
Redesigned key modules of the company website and developed interactive, responsive interfaces using HTML, CSS, JavaScript, and Bootstrap. Developed a multilingual React chatbot integrated with a .NET API, implementing Redux state management, internationalization, responsive design, and accessibility improvements.
**Technologies:** React.js, JavaScript, HTML, CSS, SCSS, Bootstrap, Redux, i18n, .NET API
